EMPLOYMENT:

Frontend Developer | DonorSearch by EverTrue | March 2023 - June 2026 | Remote

- Engineered the greenfield development of a modern web application within a lean, 3-developer team to completely replace DonorSearch's legacy flagship product.
- Developed complex data tables and real-time filtering functionalities using React, handling complex data streams efficiently to enhance user search capabilities.
- Built and maintained data-driven forms and validation workflows using React Hook Form, streamlining user input handling across the application.
- Executed a UI framework migration from ChakraUI 2.x to Mantine 7.x midway through development, optimizing component performance and managing breaking changes.
- Integrated RESTful APIs using Axios and TanStack Query, collaborating closely with backend engineers on live, rapidly evolving endpoints.
- Implemented automated testing using Vitest for unit tests and Playwright for end-to-end user flows, drastically reducing regressions during rapid development phases.
- Managed cross-company branding updates following the company's acquisition by EverTrue, refactoring global UI components to match new corporate design languages.
- Accelerated development velocity by adopting Claude Code for automated planning, debugging, and testing, after initially evaluating and pivoting from Amazon Q.
- Contributed occasional minor codebase edits to the Laravel backend when necessary to unblock frontend development tasks and expedite feature delivery.

Sales Development Representative | REVGEN NC | June 2022 - November 2022 | Remote

- Collaborated with Account Executives to strategically manage and drive sales pipeline.
- Conducted high-volume B2B prospecting via 100-120 dials daily to identify opportunities.

Tech Consultant | Target Corporation | October 2019 - June 2022 | On-site

- Resolved technical problems for customers, explaining complex topics in simple terms.
- Managed high-volume electronics inventory, floor presentation, and display setups.
